

Legacy Match Age Verification Policy

Effective Date: June 23, 2026

This Age Verification Policy explains how Legacy Match confirms user age eligibility and ensures compliance with platform requirements restricting access to individuals 18 years of age or older.

1. Minimum Age Requirement

Legacy Match is strictly intended for individuals who are **18 years of age or older**. By creating an account, users confirm that they meet this minimum age requirement.

Users under the age of 18 are not permitted to use Legacy Match under any circumstances.

2. Age Verification Method

During registration, Legacy Match uses an **age gate (self-attestation)** system. Users are required to explicitly confirm that they are at least 18 years old before completing account creation and accessing platform features.

This age confirmation is a mandatory step in the onboarding process and must be completed in order to proceed.

3. Additional Verification Safeguards

To support the age gate process and reduce fraudulent or inaccurate registrations, Legacy Match also applies:

- Email verification prior to full account activation
 - Automated detection of suspicious or anomalous account activity
 - Manual review of accounts flagged for potential policy violations
 - User reporting tools to flag suspected underage accounts
-

4. Enforcement and Restrictions

If Legacy Match becomes aware or reasonably suspects that a user is under 18 years of age, the account may be:

- Immediately restricted or suspended pending review
 - Permanently removed from the platform if underage status is confirmed
 - Blocked from re-registration where necessary to protect platform safety
-

5. Limitations

Legacy Match's age verification system relies primarily on user self-attestation and supporting safeguards such as email verification and behavioral monitoring. While these measures significantly reduce risk, no system can guarantee absolute prevention of underage access.

6. Policy Updates

Legacy Match may update this policy at any time to reflect changes in legal requirements, platform features, or safety standards. Continued use of the platform constitutes acceptance of the updated policy.

Contact:

Age-related concerns or reports may be submitted through Legacy Match's official support channels or in-app reporting tools.
